SENTENCE PASSED

And Two Convicts Will Be Taken to Eddyville.

Commonwealth Business Finished and Civil Matters Now in Order.

Of the three murder cases set for trial Tuesday only one was disposed of. Peter Johnson, col., who shot and killed Lizzie Weaver, also colored, near Herndon, was tried and acquitted. The proof showed the killing to have been accidental. The cases of Robert Randolph and Jake Williams, both colored, under indictment for murder, were continued until the next term, and the prisoners will remain in jail.

Jas. Gresham, indicted for malicious cutting, entered a plea of guilty to the lesser offense, assault, and was fined \$30 and costs.

In the case of the Commonwealth against the Wrought Iron Range Company, charged with having failed to file a statement with the Secretary of state, defendant was fined \$100.

Sentence was passed yesterday on Wm. Mackey and Hughey Wagner, both colored, and they will be taken to the Eddyville prison tomorrow or next day. Each got one year for grand larceny.

Peter Johnson, who was acquitted of a murder charge, was fined \$25 and sentenced to jail for ten days for carrying a concealed deadly weapon.

The Commonwealth docket has been finished and only civil matters will be tried during the balance of the term. Court will likely adjourn next week.

The suit of P. P. Huffman against the Hopkinsville Water Company for \$10,000 damages is now on trial. The plaintiff claims that the water company takes so much water from the West Fork of Little River as to greatly diminish the water supply at mill, which is located on the same stream, about seven miles south of the city. Hence he claims damages as above. The case will be given to the jury to-day.

RINGSTER'S REFLEX.

Amused at the Way the Ring Roasts the Agent Meacham.

Committee on Campaign Lies Appointed and Now at Work.

It is so hard to keep my records from falling into the hands of the enemy that I am getting almost afraid to write anything at all. It looks like the whole universe is on the fusion side. I am really getting suspicious of some of the men on our own ticket. When everybody is drowning no wonder it is getting to be "every man for himself and the devil take the hindmost."

The other night I couldn't help but be amused to hear John Feland and some of the other ring speakers abusing Cansler and Meacham. What they say about Polk doesn't seem to have any more effect than pouring water on a duck's back and as for Meacham he has been in Buffalo for a week and probably cares nothing for what people are saying about him 1000 miles away. But the boys are bound to have somebody to roast and they always seem to be easier like after one of these explosions.

A committee on Campaign lies has been appointed and they promise to have a choice lot of new issues ready to circulate the last week of the campaign. I doubt if even lies will save us at that stage of the game.

Paul Moore, of Farlington, was here the other day and when he ran across Otho Anderson said: "Hello! Otho. How's politics? I suppose your ticket is having easy sailing as usual?"

You ought to have seen the expression on Otho's face as he replied:

"Easy, did you say? Well, I should say not. We are for once up against the real thing. The fusionists are making it as hot as h—l for us and have had us on the run for three weeks. I don't know where they came from, but they will either beat us or bust us."

They are telling it on Bob Cook now that he was seen about a week ago to shake hands with Meacham in a barber-shop and if they prove it on him Bob will probably be the hind man in the race. The Ring front end to end seems to have it in for Meacham and they call him everything in the catalogue of names except a fool and a coward. They won't even let upon him when he leaves the state. The confident smile he wears on his face, seems to set them crazy with fearful visions of the future. I'll be glad when it is all over.

The last poll taken shows that the fusionists will carry the four Hopkinsville precincts by 150 majority. Great Caesar's ghost! Is there no way to stop the landslide?

The dismal outlook has had a very depressing effect on the moon-eyed men on the Ring ticket. Even John Prowse is hesitating, although John generally walks up to the lick-log and licks when they tell him. But I am using the wrong figure of speech to illustrate the way they pull John's leg. Licking is altogether too realistic. The very word makes us all tremble at what is to come next month.

PYTHIAN MEETING.

Col. Jouett Henry Elected Grand Vice Chancellor.

The Grand Lodge of Knights of Pythias was held in Owensboro this week. The attendance was large and the meeting was one of the most successful in the history of Kentucky Pythianism. Judge J. D. Atchison delivered the address of welcome.

The election of officers for the ensuing year took place Wednesday. Col. Jouett Henry, of this city, was chosen Grand Vice Chancellor. W. R. Logan, of Louisville, was elected Grand Chancellor.

FORTSON CHAPEL.

Big Meeting in Progress at This New Church.

PRIVATE SALES

And Prices Remain Same as Quoted Last Week.

Receipts of the week this week were light. Sales amounted to seventy hogheads. The quality was of medium grade and the prices were fair showing to change from last week's quotations.

All of the sales of tobacco made this week were private, and consisted of both lugs and leaf. Lugs ranged from \$4.50 to \$6.50 and leaf from \$5.50 to \$10.

The new crop is all in the barn, but buyers have not as yet made many purchases in Christian country. It is estimated that 1,000,000 pounds have already been sold in Robertson county, Tenn.

IDEAL FALL WEATHER

Has Prevailed and Planting Progressed Rapidly.

Another week of ideal fall weather has prevailed, and the work of preparing the soil for the reception of the winter grains and of planting them has been occupying the attention of the farmer, and it is needless to state that the work progressed favorably. More than half the area intended for wheat has been planted, many farmers having delayed sowing through fear of the Hessian fly, which has already appeared in some of the early sowings. The crop, as a rule, will be put in the ground in better condition than for several years. The acreage will also be large.

THIS AND THAT.

New York County, our National, pays bigger salaries than our national and state governments, leaving out the president.

If you wish to have a wall papered which is well brushed over with vinegar, or the paper will not stick.

Venus has often been seen at noon with the naked eye quite near the sun. Once when this attracted public attention Napoleon turned it to advantage by causing it to be rumored that it was his own star.

The value of pepper was known of old. We read that when Rome was to be ransomed from its barbarian conqueror in the year 400, Alaric demanded 3,000 pounds of pepper among the payments, and that Hippocrates used it in medicine, applying it to the skin.

In 1900, throughout the United States, the seasons numbered 857,577, Knights of Pythias 492,506, odd fellows 862,723, Royal Arch Masons 205,628, Improved Order of Red Men 236,702, Hęptaphis 55,668, Macabees 227,936, Ancient Order of Foresters 38,089. These are all secret orders.

It is calculated that more ground may be got over at a lively party or ball than in a game of golf. It is stated that in many a single waltz, kept up, as some of them are, for a long while, as much as a mile may be gone over. An ordinary square dances calls from a quarter to a half mile of moving about.

Boulevard, Tex., is noted not only for its oil, but the tallest telegraph poles in the United States. The tops are 150 feet above the ground. They were erected on the opposite banks of the Neches river by the Western Union Telegraph company in order to string its cable across the stream. The span is 144 feet in length. This height is necessary to admit the passage of ships through a drawbridge, their masts being 100 feet tall and more.

IGNORANCE NOT BLISS.

Case of the Girl Who Was Invited Out to Dinner.

"When a man takes a girl out to dinner," said the frivolous maid, "it would certainly simplify matters greatly if he would announce before-hand just how much he expects to spend for one's entertainment. Only last week a young man from New York, who is visiting in Baltimore, and whom I knew but slightly, asked Louise, Aunt Effie and me to take dinner with him at one of the hotels. 'He doesn't look especially opulent, and I never heard that he was rich, so all three of us guests, with feminine precipitation, instantly jumped to the conclusion that he had to struggle to keep the wolf from the door and ordered accordingly. I was fearfully hungry, but I took all the reasonable things on the menu, the scrappy things I really didn't care much about, and put away from me the more expensive wands as out of the question.'

"Louise and Aunt Effie did the same, and poor Mr. Blank nearly had a prophy in his rage at what he called our birdlike appetites. When he saw 'the way for that meal he pulled every cent from his pocket, a roll of bank notes as big as his wrist, and said, 'I heard that he's a millionaire, and that to him a dinner to three would be a swell hotel is a mere bagatelle.'

"May I haven't regretted my wasted opportunity," said the frivolous maid, "and perhaps I haven't saved over the debacles that I did not consume on that fatal night, but I'll have nothing to regret in the future. I'll just frankly ask the girl who invites me to dine with her what her circumstances are, and act accordingly, that's what I will do." And the frivolous maid nodded her head quite as if she really meant it.

Bird's Nest in Apartments.

A bird's nest built on the apartment house plan is a curiosity in Franklin square. Two families of robins occupy the nest, which is singly built on a crutch of the limb of a popular tree. The old birds are rearing families side by side in the old nest, with no sign of domestic discord. The nest is much larger than the usual size constructed by the birds, and is divided into two sections by a portion of twigs lined with feathers. In one apartment there are three young robins and in the other four constitutes the family. —Philadelphia Record.

WORSE THAN A MOOSE.

Elle Creates Panic Among Women in a Small Boat.

A most unusual incident occurred to a party of women who visited the Orleans life saving station, says the Boston Globe. Serious consequences were narrowly averted through the skill of Capt. Linnell in keeping his boat right side up, but since the affair ended without injury to anyone, only the comical side is now referred to by any of the participants.

Capt. Dean S. Linnell took a party of a dozen women in a flat-bottom rowboat from Barley Neck across Meeting House pond to the life saving station to witness a boat and gun drill. In the party were Mrs. Linnell, Mrs. Shackley and Mrs. Sturtevant, who reside in that locality during the hot weather, accompanied by a number of summer girls boarding there, a dozen or more, all filling the boat to its capacity.

On the return trip across the pond, just as Capt. Linnell was rowing the boat out of the eel grass, an eel jumped out of the water and landed in the bottom of the boat. The scene that immediately followed is indescribable. The traditional mouse never caused so great a panic among wearers of petticoats as did this slippery eel. In this instance there were no tables or chairs for the women to climb upon, and, while Capt. Linnell would not allow them to stand upon his head or shoulders, he found it impossible to keep them from jumping up and down on the thwart and nearly falling over each other.

Indeed, the jolly skipper, who now had become decidedly serious, had all he could do to prevent some of his passengers from jumping into the pond. One of them fainted and two others became hysterical, and it was all the level-headed ones could do to keep the boat from capsizing and throwing the whole party overboard.

A dozen girls were grabbing at the greasy, wriggling little eel and trying to get the cause of all the mischief overboard. The slippery thing went through everybody's fingers, until at last Mrs. Sturtevant succeeded in closing its tail with a viselike grip between forefinger and thumb, and, though it promptly twisted upward over her wrist, she at length shook it off into its native element.

Capt. Linnell was then able to break away and emerge from the mass of femininity with which he had been enveloped, and after a time reached the shore, where the girl who had fainted was resuscitated and the hysterical ones restored to their normal condition.

Through the accident thus fortunately ended, it was an extremely narrow escape from drowning for the party, as the boat was on the verge of capsizing several times.

THE BARRACOON AFRICA.

Nege Slaves as They Pass from Raider to Dealer.

When the difficulties of the forced marches are surmounted and the captured slaves landed at the headquarters of the invading king they are stored till they can be divided among their captors—so many to the king, so many to his captains, so many as prize money to the soldiers. It may be some days before everything can be settled; meanwhile the slaves are crammed altogether into the smallest possible space, probably locked up and not allowed to move out of their prison house for any purpose whatsoever. During this time the strongest of the slaves are bound. They are powerless to help whatever may be done to the others who are their fellow townsmen, people, friends, or, it may even be, members of their own family.

And finally, osteopathy has loyal defenders and warm adherents among all classes because of results attained by its practitioners. "Nothing succeeds like success." It is results that tell.

What the invalid wants is to get well. He is not so much interested in the name of the school of healing to which his doctor belongs as he is in the fact that he can do what he claims to do. It is by this standard that osteopathy asks to be judged. While the claim is not made for it that it is a cure-all or that it has eliminated death from the world, yet the fact remains that it has brought health and vigor to the body and cheer to the heart of many an invalid from whom all hope had vanished.

These are but a few of the reasons why Osteopathy has firm, loyal friends wherever it has been introduced by competent and conscientious Osteopaths. If you are sick and suffering try Osteopathy. If you desire the most profitable profession try Osteopathy. For free literature address the Southern School of OSTEOPATHY, (Incorporated), Franklin, Ky.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have had without Hood's Sarsaparilla. My father thinks he could not do without it. He has been troubled with rheumatism for years, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take care of the farm," Miss Ada Dorr, Sidney, Iowa.

THE MARCH TO VICTORY.

With less than two weeks of the campaign left, the success of the fusion ticket seems no longer in doubt. All of the indications point to the triumphant election of the entire reform ticket.

The Ringsters, after seven fat years of spoils, of the collected salaries from the county aggregating more than \$100,000, find themselves in dire distress and face to face with 4,000 determined voters of all parties, who will scourge them from high places on the 5th day of November. The salaries of some of these unworthy officials have been increased since they went into office, to make the plunder richer. They have set up in the court house a machine that has attempted to crush all opposition in the Republican party and defy the whole people of the county. Drunk with power they have carefully laid plans to perpetuate themselves in office indefinitely to the lasting injury of the county. The so-called primary on February 9 was an orgy of corruption, bribery and intimidation. A combination was formed between the men who declared themselves by which all opposition was throttled and the return manipulated to carry out the desired ends. The names of the "combine" were printed on a Ring ticket and the corruption fund said by these in a position to know, to have been \$12,000, was made a common fund for buying votes at prices ranging all the way from \$1 to \$7. A few candidates who threw themselves into the breach to oppose the Ring were laughed to scorn and virtually robbed of the assessments collected from them. H. H. Golay was clearly the choice of his party for sheriff and he believed in a fair expression he could win the nomination, but on the election day he found himself opposed not by one man but by a band of ringsters, pledged to stand together. Golay dropped \$2,700, only to find that he had gone up against a skin game and at no time had a chance to win, even if he received a majority of the votes. The officers were packed and the counting was a scientific juggling of figures real and imaginary. This is what those say who were brought into close contact with the operations of this iniquitous machine.

No wonder the Republican party is in open revolt and the better half of it has determined to sweep out this mess of corruption.

In every precinct in the county the lines of demarcation are being drawn, hundreds of loyal Republicans will follow the lead of Croft, Littlefield, Renshaw, Cansler, Major, Gilliland, Long and other trusted leaders who are enlisted in the fight for honest politics and decent government in Christian county.

It is estimated that 500 white Republicans and from 500 to 1000 colored men will vote to redeem the county from ring rule. It is believed that the 300 gold Democrats who have a representative on the fusion ticket, will support it almost to a man. Of the 3,300 Bryan Democrats, it is confidently claimed that not less than 3000 of them will vote for every man under the fusion device, which is the device of the Democratic party.

It looks like a landslide to form. There are more good people in Christian county than there are ringsters, bribees and corruptionists. In the great moral issue now before the people, the good people must and will stand together. The fusion candidates are men above reproach, whose integrity is unquestionable. Where they are Democrats, they will have honest Republican deputies, and where they are Republicans, they will have Democratic deputies. If elected they will be officers of the whole people and not a close cor-

poration of self appointed dictators to ride rough shod over the people whose money they receive for mismanaging the affairs of the county.

Line up white men, colored men, good men of all parties, stand firm for your rights, resist the efforts that will be made to intimidate, deceive and bribe the timid, the unwary or the venal, and the Augean stables will be cleaned out on November 5th.

Scribner's Magazine for October has an attractive colored cover by Walter Appleton Clark—the first design of this kind that he has made. The number is also rich in illustrations by such accomplished artists as Howard Pyle, F. C. Yohn, Henry Holt, W. R. Leigh, and Louis L. Hutton.

Theodore Roosevelt contributes the first two of hunting articles in that spirited manner which makes "The Wilderness Hunter" one of the best outdoor books ever written. These articles, called "With the Cougar Hounds," describe his adventure while hunting the mountain lion last winter in Colorado. The pack of intelligent hounds who chase the prey are the heroes of the story in which the individuality of the dogs is delightfully portrayed by Col. Roosevelt. He also in his first article has gathered many new facts and inferences in regard to the nature of the cougar which is much in dispute. The article is therefore a contribution to natural history. The illustrations are from a collection by Col. Roosevelt's companion in the hunt, Philip K. Stewart, who succeeded in taking cougar and wild cats near at hand in the trees, with the dogs climbing after them, also the death tussle with the hounds.

A bench warrant has been issued for the arrest of J. B. Mathews, who was assistant secretary of state under Caleb Powers. Mathews is a witness for the Commonwealth against Powers and has suddenly disappeared. It is said he has left the State. Mathews was wanted to give evidence in rebuttal contradicting a statement by Powers that he did not give Youtsey a key to his office. The Commonwealth has an affidavit from Mathews that Powers admitted to him that he had been given Youtsey the key. About thirty witnesses were examined for the defense Wednesday but the testimony was practically the same as that offered at the previous trial. W. C. Owens was fined by the court for refusing to stop talking when ordered. A number of witnesses testified yesterday and the case will probably go to the jury Saturday morning.

The Court of Appeals reversed the judgment of the McCracken Circuit Court in the case of the Commonwealth against E. M. Headley. Headley was indicted for an alleged attempt to bribe E. M. Baker, an election challenger in the election of Nov. 6, 1900, in the Beckham-Yerkes race. The lower court sustained a demurser to the indictment, throwing the case out of court. This court holds this to be an error, and that the indictment is good, and gives directions for a new trial.

Stamps to the amount of \$76,000 were stolen from the Chicago post office by thieves who crawled under the flooring and bored their way into the vault. The robbers carried away their booty in a wagon. No clew to their identity has been discovered.

DISPATCHED A RATTLER.

Snake With Four Rattles Killed
On Main Street.

Horace Brown, a colored barber in W. W. Gray's shop, killed a rattlesnake on Main street Wednesday night. The supposition is that the reptile crawled out of a cellar. He was dispatched in short order and on examination it was found that he had four rattles.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. R. C. Grandin, the popular druggist of Ontario. "I told her to see Col. Roosevelt and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she found it not worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's. I told her to see Col. Roosevelt and consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by it. It is on sale by all druggists.

Came Near Dying.

"For three nights and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, of the city of Columbia, Tenn. "I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely. I went to sleep and did not wake for eight hours. On awakening a few hours ago I felt so gratified that the work I do on going to the office is to write to the manufacturers of this remedy and offer them my grateful thanks and say, 'God bless you and the splendid medicine you make.' This remedy is for sale by all drugists.

SUGAR STATISTICS

Relative to Country's Consumption—Cuban Crop Quotations.

As a good deal has recently appeared in print regarding the consumption of sugar in this country, the various sources from which it is obtained, the amount of duty paid thereon, etc., the following facts and figures furnished by Willett & Gray, sugar statisticians, of New York, will be found of interest:

"The total consumption of sugar in the United States last year was 2,210,847 tons and based on the average increase of 6.34 per cent, during the past 19 years, the consumption this year should be 2,360,585 tons. Of this quantity, 1,000,000 tons in round figures will come from American sources, say Louisiana being able to produce 450,000 tons. United States beet factories, 150,000, Hawaii, 350,000 and Porto Rico 150,000, all being free of duty, leaving 1,060,585 to come from other sources and on which duty is paid. The average price is assessed is \$36 per ton, or a total of \$48,981,606. The price of all the sugar consumed, however, being enhanced to the extent of the duty of \$36 per ton or a total of \$84,981,606, it is evident that \$36,000,000 additional is paid by the people in order to provide the Government with 49 millions for revenue, of which the Government is not now in need. If the duty is taken off Cuban sugar, the benefit of 85 millions goes to the people."

"On October 8th, the quotation for Cuban Cane Sugar, at \$36 per cent, free on board Cuba, was 1.98 per lb., duty on same amounts to 1.685 per lb., equivalent to 86 per cent ad valorem."

ON OCTOBER 28

Assassin of McKinley Will Probably Be Put to Death.

Albany, N. Y., Oct. 22.—Warren Meads of Auburn Prison, spent several hours to-day in conference with Superintendent of State Prisons Cornelius V. Collins, arranging the details for carrying out the sentence of death imposed on Leon F. Czolgosz, the murderer of President McKinley. But 26 witnesses will be admitted. The prison physicians will be assisted in the conducting of the autopsy by Dr. Carlos F. MacDonald, former President of the State Commission in Lunacy, and one of the greatest experts on insanity in the country. It is believed that the execution will take place October 28, or if everything can not be got ready on that day, a similar hour on the 29th.

One half the world should read the patent medicine testimonials if we are really anxious to know how the half lives.

AFTER POWERS

Trial Decision in Requisition Cases Will be Announced.

Indicinapolis, Ind., Oct. 22.—It is not likely that Governor Durbin will announce his decision in the requisition of Governor Beckham of Kentucky, for the extradition of Messrs. Taylor and Finley until after the trial of Caleb Powers, now on at Georgetown, Ky. It is generally understood about the Statehouse that the Governor only consented out of courtesy to the Kentuckians who presented the requisition to carefully investigate the records, and he has already read enough to convince him that he should not honor the requisition.

TRAFFIC DELAYED.

Several Cars Derailed Near Baker's Hill, Tenn.

A derailed freight train delayed traffic on the L. & N. road five or six hours Wednesday morning. One of the cars in a north-bound freight broke down at the foot of Baker's Hill and jumped the track, causing three or four others to be knocked off. The roadbed was damaged for a considerable distance and traffic was delayed until a crew could be sent to the scene, the wreckage removed, and the track repaired. The wreck occurred about 8 o'clock.

A transfer train was sent out to the scene from Nashville and passengers were taken to that place. Nobody was hurt in the wreck, and no other damage was done other than to the derailed cars and track.

The mail due here at 9:40 a. m. did not arrive until about 2 p. m.

WILL ENLARGE.

Additional Rooms for Arcadia Hotel at Dawson Springs.

Mr. N. M. Holman, of the Arcadia Hotel at Dawson Springs, informs the KENTUCKIAN that he will, early in the spring, enlarge his already commodious house. By this addition to the building many more guests can be accommodated. The Arcadia Hotel always enjoys a most liberal patronage, in fact its rooms are filled throughout the summer season, and many who go to Dawson to drink the mineral waters the year round make this popular hostelry their home during their stay. Last season's business was the largest ever enjoyed by the Arcadia management and with additional room their business will largely increase next season.

Mr. and Mrs. Holman will go to California early in December, but they will return in the spring.

Will return to this city in a few weeks to make his home.

THE NEW PRESIDENT—A PRAYER.

The following poem, by Clinton Dangerfield, is reproduced, by permission, from advance sheets of the November Century.

Not for the silent chief whom Death

Gently and sedulously keeps Within its splendid calm; naught mars

His well-won laurels where he sleeps.

Rather for him who newly stands Half startled on a slippery height,

Like a strong falcon which some hand

Unheded rudely, whom the light

Floods unforeseen, but who shall prove

A wide-winged strength! For him we pray;

Give him such wisdom swift and keen

He shall restore us yesterday.

YOUNG THINKER.

WHY THEY SLEEP.

A Missouri editor who had printed a country newspaper for many years, took a walk through a graveyard, and as he returned home he wrote down some interesting observations.

He said: Take a walk through a cemetery alone and you will pass the last resting place of a man who blew into the muzzle of a gun to see if it was loaded. A little further down in the slope is a crank who tried to see how close to a moving train he could pass. In strolling about you will see the monument of the girl who tried to start a fire with kerosene, and a grass covered knoll that covers the boy that put a cub under the mule's tail. That tail shaft over the man who blew out the gas, casts a shadow across the grave of a boy who tried to jump on a moving train. Side by side the ethereal creature who always had her corset laced to the last notch and the intelligent idiot who rode a bicycle nine miles in ten minutes, sleep on undisturbed. At repose is a doctor who took a dose of his own medicine. There with a top of a shoe box driven over his head is the old man who married a young wife.

Away over there reposes the boy who was buried in a box with the woman who kept straining with her powders in the cupboard. The man who stood in front of a machine to oil a cycle is quiet now and rests besides the brakeman who fed himself to a 70 ton engine; and the potter's field may be seen in the heathen places of the earth where they tried to bury the editor. In here also lies the man who took the paper two or three years without paying for it and put it back to the post office and asked the postmaster to mark it "refused." Both lie unburied and unmarked.

EXCITING RACES.

Four Prizes Awarded to as Many Victors.

Gunn's residence, on South Virginia, and the distance for the first race was five miles. Charles Cansler won this race, with Chas. H. Nash, Jr., a close second. First prize, a loving cup; second, set of boxing gloves; third, 15¢ minutes.

The second race of three miles was won by Gill Edwards. Time 10½ minutes. Jas. Forbes won second prize in this race. First prize, striking bag; second, regulation foot ball.

All of the contestants were amateurs, none of them ever having competed for prizes before.

SHOT BY FARMER.

Ring Neck Pheasant Killed Out of Season.

Open Season Between November 15 and January 1—Penalty for Violation of Game Law.

(COMMUNICATED BY "SPORTSMAN.")

A ring neck cock pheasant was shot by a farmer in the southern part of the county a few days ago. He gave as his reason for doing so that it was something new and he wanted to see what it was.

He has the information now, but the question is, ought he not to be willing to pay for it?

The law, in such cases made and provided, is as follows.

Sec. 6. "No person shall catch or kill or pursue with such intent, or have the same in possession after it has been caught or killed, any quail, partridge or pheasant, between the first day of January and the 15th day of November in each year."

The fine for violating the law is not less than \$5 nor more than \$25. He doubtless thought nothing of the law at the time and did not intend to violate it, but does that excuse him?

He did know that he was to be here in twenty years, and I feel sure my pheasant is not even then dead.

Permit me to say when I leave, as soon as Peruna removes systemic catarrh the digestion becomes good, nerves strong, and trouble vanishes. Peruna strengthens weak nerves, not by temporarily stimulating them, but by removing the cause of weak nerves. It is a specific for all diseases, and only cures that last. Remove the cause; nature will do the rest. Peruna removes the cause.

Address The Peruna Medicine Company, Columbus, Ohio, for a book treating of catarrh in its different phases and stages, also a book entitled "Health and Beauty," written especially for women.

A PROMINENT LADY

Speaks in Highest Terms of Peruña as a Catarrh Cure.

Mrs. M. A. Theatro, member Rebecca Lodge, Iola Lodge; also member of Woman's Relief Corps, writes the following letter from 1888 Jackson street, Minneapolis, Minn.:

Mrs. M. A. Theatro, Minneapolis, Minn. Peruna Medicine Co., Columbus, O. Gentlemen:—As a remedy for catarrh I can cheerfully recommend Peruna. I have been troubled with chronic catarrh for over six years. I had tried several remedies, but nothing would do. I then advised to try Peruna, and I began to use it faithfully before each meal. Since then I have always kept it in the house. I am now in better health than I have been in over twenty years, and I feel sure my catarrh is entirely removed.

Peruna removes systemic catarrh when it is removed.

As soon as Peruna removes systemic catarrh the digestion becomes good, nerves strong, and trouble vanishes. Peruna strengthens weak nerves, not by temporarily stimulating them, but by removing the cause of weak nerves.

He also knew that he was to be here in twenty years, and I feel sure my pheasant is not even then dead.

Peruna strengthens weak nerves, not by temporarily stimulating them, but by removing the cause of weak nerves.

Let the people take notice, therefore, that they are not expected to murder them on sight—at least until they have time to increase. They will become as numerous after a while as our common quail—if only given a chance. If it is a question of meat, neighbor, kill a chicken, duck, turkey, goose—anything but peacocks, until they get cheaper. They cost from four to five dollars a pair now, and the luxury comes high.—TO THE OTHER FELLOW.

The interment took place near Hampton, Tenn., yesterday.

Can You Afford To?

Can you afford to experiment with unknown and untried brands of Fertilizers, when you can get right here what you know to be good? Soils are of great variety, what suits your farm may not be adapted to your neighbor's. Experimenting may mean the loss of a crop, as well as the amount invested in Fertilizers. Every farmer knows Armour and Homestead, Eagle and Ox Brand Fertilizers. They are no experiment. **It's Time to Put in Your Order Now** if you want it to come forward with shipments for Early Fall seeding.
